

AE Benchmark

Important: you must install both the ZXP & plugin for AE Benchmark to work. The easiest way to do this is to do this via the [aescripts manager app](#). Alternatively, manual installation steps are shown below:

Plugin Installation:

Windows

`Program Files\Adobe\Adobe After Effects <version>\Support Files\Plug-ins\`

Mac

`Applications/Adobe After Effects <version>/Plug-ins/`

ZXP Installation:

Drag and drop AE Benchmark.zxp into the [aescripts ZXP installer](#) or the [ZXPInstaller](#). We recommend using the aescripts installer as it's more robust and has extra useful features.

What is it?

AE Benchmark is a utility that measures real world AE performance. You can optionally publish your score to our online scoreboard at [aebenchmark.com](#) to compare your rig with others from around the world.

Questions?

If you experience **any** issues whilst using AE Benchmark or have a question, please submit a [support ticket](#) on aescripts and we will do our best to resolve the issue in a timely manner.

AE Benchmark is a collaboration between [aescripts + aeplugins](#), [The Waenderer](#) & [Plugin Everything](#)
